Dr. Dov Kischinovsky

Dr. Dov Kischinovsky is a specialist in oral and maxillofacial surgery. He obtained his doctorate in Dental Medicine from the Hebrew University, Jerusalem in 1976 and a degree in Oral and Maxillofacial Surgery in 1986 following extensive training in advanced oral procedures, orthognathic and reconstructive surgery. He is formerly a lecturer in the academic program for students of oral and maxillofacial surgery and Head of the Oral Surgery Unit at Wolfson Medical Center. Dr. Kischinovsky did further subspecialty training in implantology with emphasis on bone grafting and use of the zygomatic implant in various hospitals in Scandinavia and Belgium. He is a member of the International Association of Oral and Maxillofacial Surgery (IAOMS) , International Congress of Oral Implantologists (ICOI) and the Computer Aided Implantology Academy (CAIA) as well as various national organisations for oral surgery and implantology. He frequently gives lectures locally and abroad and has written several papers in the fields of oral surgery, endodontic surgery and implantology. Dr. Dov Kischinovsky has an active private practice in oral and maxillofacial surgery with special expertise in 3D CT technology, bone grafting and dental implantology. He has 16 years of experience with zygomatic implants. By using computerized planning Dr. Kischinovsky offers alternatives to bone grafting and nerve repositioning in the lower jaw. He is a leading figure in this field and works regularly with referring doctors to provide care for the community.

Dr. Igal Balan

Dr. Igal Balan is a Dentist, Lecturer and Clinical Instructor on advanced treatment methods in the field of Immediate Loading. He has graduate the University of Timishora in Romania (1990), post graduate of Pittsburgh University (1992) and a member of ICOI (International Congress of Oral Implantologists). He took part in many advanced courses in Israel and abroad perfecting in implantation and rehabilitation. Dr. Balan has an active private practice that gave to thousands of patients the confidence of a beautiful smile within a single day. He is renowned worldwide for his 2 decade long experience in One Day implantation and rehabilitation. Dr. Balan improved existing advanced techniques for implanting in One Day, and developed an innovative method for rehabilitation.

Dr. Omri Rudberg

Dr. Rudberg, born in 1963, graduated the "Hadassah Faculty of Dental Medicine" at the "Hebrew University, Jerusalem" in 1991. Diplomate of the International Congress of Oral Implantologists since November 2015. Practices implant surgery and rehabilitation in his private clinic, situated in the central part of Israel. Lecturer and workshop conductor in Oral Implantology advanced methods. Former general director of the "post graduate program for geriatric dentistry", in the "Yad Sara Geriatric Dental Clinic" in Jerusalem (1993-1998). Scholar in Residence at the "Hadassah Faculty of Dental Medicine" of the "Hebrew University, Jerusalem" (1998-2002). Served as the chairman of the "Israeli Society of Geriatric Dentistry" (2001-2004). Head of the "Unit for elderly and systemic involved patients" at the Tel Aviv Sourasky Medical Centre (2004-2007).

Prof. Eli Raviv

Prof. Raviv received his dental degree from the University of Tel-Aviv and his certificate in Prosthodontics from the Hebrew University in Jerusalem, Israel. He is an Associate professor in the Faculty of Dentistry, McGill University - Montreal, Canada. Director of Prosthodontics and Associate Director of the Department of Dentistry, Sir Mortimer B. Davis - Jewish General Hospital, Montreal, Canada. He has been awarded numerous awards. The Julius Michman Prize, London. First prize for best presentation - American Academy of Osseointegration, Order of Dentists of Québec, Montreal, Québec and more. He is a member of the Editorial Review board of Quintessence International Journal. Prof. Raviv is the former Editor in Chief of the Dental Tribune Journal - Canada. For the past 30 years Prof. Raviv is involved in teaching and research of Implant Dentistry. He published in local and international peer reviewed journals.
